FEB & MARCH 2023

SAVE RHINOS, TO SAVE PEOPLE, TO SAVE TOMORROW

New Rescued Rhino Calf

On the 27th of March, Care for Wild received a new orphaned rhino calf, who was estimated to be between 10-12 months old. The young calf was found next to her deceased mother, the cause of death was unknown and followed up with post-mortem. We extend our heartfelt gratitude to Veterinarian Dr Peter Buss from the Kruger National Park for his prompt and rapid rescue of this precious life.

Upon arrival at the sanctuary, Petronel and the Care for Wild team worked tirelessly to comfort and stabilise the young calf. Slowly she began to take her first important steps in the long rehabilitation journey she has embarked on. She was quickly introduced to fellow orphans Jock, Mavic and Aquazi. The introduction of new orphans to other rhino calves has an intangible positive effect. Emotional bonds with other rhino calves are crucial to the rehabilitation process and form a strong base for successful rewilding later on. Jock, Mavic and Aquazi have been very gentle and welcoming to the new arrival, almost as if they remember their own first few weeks learning to navigate life without their mothers.

Care for Wild extends our heartfelt gratitude to everyone who has shown support and sent kind messages for this newest arrival.

Robyn Receives Veterinary Treatment

Earlier this month, Rhino Monitors protecting and securing the reserve (our larger release site), reported that 9-year-old Robyn was suffering from a severe limp. Veterinarian Dr Chris Smith joined Petronel and the Care for Wild team to dart and immobilise Robyn for a closer examination of the problem. A puncture site was discovered in the sole of her front right foot which is suspected to have been from a thick sickle bush / Sekelbos thorn. The sickle bush thorn is very painful and causes a rapid inflammatory response from the body. The thorn had already dislodged itself so Dr Chris, Petronel and the team washed Robyn's foot thoroughly before giving anti-inflammatories, a long-acting antibiotic, and multivitamins to boost her immune system.

Robyn was back to normal within a couple of days. Thanks to our amazing Rhino Monitors for their astute observation, care and attention.

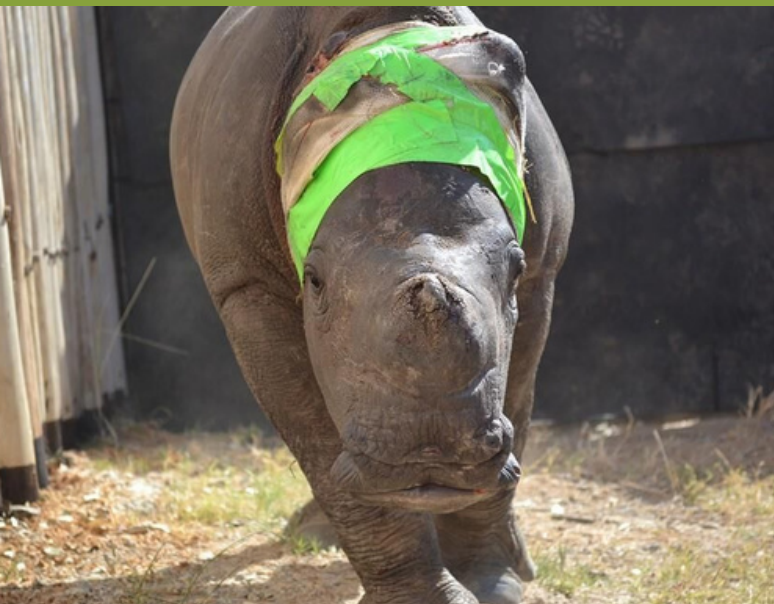

Daisy receives a massage!

As part of her ongoing rehabilitation program, Daisy's daily walks have started to increase but her little legs will take some time to adjust to the increased distance. She has been a little stiff, so Petronel gave her sore muscles a massage.

But massaging the muscles of a rhino can be quite challenging! Fortunately Care for Wild is equipped with an equine massage device which delivers gentle vibrations deep into the tissue and helps improve circulation.

Daisy has proven to be another satisfied patient and enjoys her deep tissue massage.

Blizzy Celebrates 1st Birthday

On the 13th of February 2022 at 2:25am, 8-year-old orphan Wyntir gave birth to a healthy baby girl. This miracle baby was the world's first rhino calf born to parents who were both orphaned due to poaching, and who was conceived and delivered naturally.

Wyntir was orphaned in 2014 when she was just 2 months old. She was found alone in the Kingfisherspruit area of the Kruger National Park after poachers killed her mother. Alone and defenceless, hyenas attacked the tiny calf and chewed off her ears. Blizzy's father, Storm, was also orphaned by poachers just over 11 years ago. They killed his entire family and left the 4-week-old calf to die.

Both Wyntir and Storm were rescued and brought to Care for Wild Rhino Sanctuary. After extensive care and rehabilitation, they both entered the rewilding and release programme. The birth of Blizzy was a monumental and very emotional moment for Care for Wild's Founder and CEO Petronel Nieuwoudt, and the whole Care for Wild team. Over the last year, it has been an absolute privilege to be able to watch Blizzy grow and develop into a feisty, strong and beautiful young calf. The best part...she is with her Mom.

Brooke Carter arranges surprise for Mounted Unit

12-year-old Brooke Carter made it her mission to help the Mounted Unit after visiting Care for Wild last year. The young conservationist who is shining a light on the urgent need for children to also understand the importance of conservation spent time with our Mounted Unit in 2022. After her visit, Brooke organised donations of riding and horse care equipment and donated from her allowance to help protect the rhinos at Care for Wild. Brooke, thank you so much. You are truly an inspirational young woman.

Back to School for the Children of Care for Wild's Staff!

With immense gratitude we would like to thank **Konica Minolta** and, **Firishta and Shikar Parsoo** for the donation of back-to-school stationery supplies. These packets which contained workbooks, pencils, pens, rulers, sharpeners, erasers, glue, paints, crayons, colouring books and more, were given out to the anti-poaching unit and caregivers at Care for Wild. Thank you for enabling us to help support our team and their families at this time of year.

Extra Tutoring for Community Children

This month, sixteen of our Junior Rangers, Grades 4 through 8, joined Care For Wild staff and volunteers for extra practice in their English and maths skills. The session focused on reading comprehension, multiplication, and division with an emphasis on focused games and fun training techniques to help improve the children's focus whilst learning. These children also received back-to-school stationery packs from **Konica Minolta**.

CFW Launches Victorious Mentorship Program for Children

Care for Wild's new Victorious Mentor Program focuses on developing children's confidence and communication skills and their understanding of responsibility, through mentorship, education and training. This month's programme took place at Care for Wild's Mounted Unit and supported 15 children from local communities from 14-18 years old.

Volunteer Spotlight: Brett

Did you know? You can volunteer at Care for Wild and really make a difference! Contact volunteer@careforwild.co.za

Meet Brett, an IT Consultant from the UK (originally South Africa) Brett and his wife Gerdi have just completed their volunteering placement at Care for Wild. This is Brett's volunteering story:

"Last year I was lucky enough to meet Petronel and Chris at the Gala Dinner in Support of Care For Wild held in the UK. What an amazing and inspirational couple. Petronel suggested that if I wanted to be more involved, that I should consider volunteering at Care For Wild, something I knew about. I of course started researching and planning.

All I can say is that my week at Care For Wild was amazing and so humbling. The work that everyone at Care For Wild does needs to be seen in person. As a volunteer, you become one of the Care For Wild Team and work alongside all of the dedicated staff. At times this could be hard physical work, mucking out the night pens or packing the dry food to supplement the diet for the Rhinos. Other times it will be mixing the milk and making fishcakes to feed those Rhinos that still need it for their development. But then there is the rewarding job of feeding the rhinos and other babies (a blesbok and zebra in my case). Feeding Daisy, whom I have followed since her rescue, was a magical moment. As a volunteer I was also involved in going out on drives through the reserve to feed the mums and babies and to take pictures of some of the rewilded rhinos to be used for identification purposes.

Being part of the Care For Wild family is something that I will cherish for the rest of my life. Everyone I met was passionate about what they do and were so friendly and helpful. Thank you to the Care For Wild family and I really look forward to volunteering again at Care For Wild in the future."

Sarah Dearman Completes Prague Half Marathon

Another inspirational story from one of our previous volunteers who is based in the UK. Sarah volunteered at Care for Wild last year and wanted to continue to support us after she left.

Sarah Dearman completed the Prague Half Marathon for Care for Wild on 1st April and raised over £575!

Thank you so much Sarah for your passion, support and enthusiasm! We are inspired!

Annie trains for London Marathon

We would like to thank Annie in the UK who is busy training extremely hard in preparation for the London Marathon on 23rd April!

Annie will be tackling this challenging and internationally renowned event in support of Care for Wild.

Here she is training in Southend-on Sea on a 13-mile run! Go Annie!

If you would like to find out more about supporting Care for Wild from the UK, please contact our new Community & Fundraising Manager, Léo Rahban who is based in England!

Care for Wild US Book Fundraiser

On March 31st, 2023 Care for Wild US collaborated with author Harry Caldwell for the installment of his second book "Cost of Deceit" in his Jake Clearwater legal thriller series. The event had over 70 people in attendance and raised \$1,225 for Care for Wild with a combination of book sales and raffle tickets sold throughout the night.

At the end of the night two raffle winners were drawn and both won Kobe Bryant authenticated signed memorabilia provided by Otto Cipolla. Special thank you to all in attendance for making it such a fun and memorable event and thank you to all that contributed to support Care for Wild!
