NOVEMBER 2023

SAVE RHINOS, TO SAVE PEOPLE, TO SAVE TOMORROW

Humble Gratitude for Giving Tuesday Success

We would like to say a huge THANK YOU to each and every single person who donated or shared our Giving Tuesday fundraising campaign. We are deeply humbled by your support.

Giving Tuesday is a global day of charitable giving that takes place on the Tuesday following Thanksgiving. It is a day dedicated to philanthropy and the spirit of giving back. This year, Care for Wild partnered with Global Giving. During the 24-hour donation window, Global Giving generously offered partial matching, amplifying the impact of your contributions. This meant that your donations stretched even further, unlocking additional bonus funds to further support Care for Wild.

We are thrilled to announce that you helped us to raise $85,025! This is absolutely amazing! Care for Wild not only received an incredible amount of donations but also secured the 5th position on the project leaderboard out of 6936 projects that registered with GlobalGiving for Giving Tuesday. We are deeply humbled and incredibly grateful.

Every single dollar donated is sincerely appreciated and your choice to stand beside us in this fight to save rhinos means the world to us. Care for Wild is not just a place, it's a Call to Action. Thank you for answering that call.

Together we will save rhinos, save people and save tomorrow.

GIVINGTUESDAY

TANA GIVES BIRTH: 8th CALF BORN AT CARE FOR WILD

On the 9th of November at 13:35, rehabilitated and released rhino orphan Tana gave birth to her first calf. Rhino monitors suspected the birth was imminent as Tana had separated herself from her crash and isolated in dense bush. The delivery itself took only 6 minutes! It wasn't long before the baby was attempting to stand. Incredible drone footage captured the precious first moments between Mom and baby as she calmly tried to help him to his feet. Tana did so well; we are incredibly proud of her. The newborn rhino is the 8th calf to be born at Care for Wild, marking another monumental milestone in the conservation of the species.

Tana was rescued in 2014 after poachers killed her mother. After extensive rehabilitation, she entered the rewilding and release program in 2017 with her best friends Wyntir and Mabush. Tana and Mabush played a vital role in Wyntir's life, acting as her ears when she struggled to hear. Having lost her own mother at only 2 months old, we are exceptionally proud of how well Tana is adjusting to motherhood.

Special thank you and acknowledgement to Trac N4 for their long term and unwavering support of Wyntir, Tana and Mabush

Rhino Conservation Triumph: A Successful Fundraising & Awareness Journey from Singapore to the US

Petronel and Chris have just returned from an International fundraising and awareness tour that encompassed Singapore and the Unites States. Whilst in Singapore, Care for Wild attended The United for Wildlife Global Summit 2023.

Established in 2014 by His Royal Highness The Prince of Wales and The Royal Foundation, United for Wildlife is dedicated to rendering it impossible for traffickers to transport, finance, or profit from illegal wildlife products. This summit marked a significant milestone as the first time United for Wildlife hosted an event of such magnitude outside the UK. The event served as a pivotal platform for global leaders and advocates to unite in the shared mission of combating wildlife trafficking and promoting sustainable practices.

Adding to the significance of the night, the Singapore skyline illuminated in green as Earthshot Week kicked off in conjunction with the summit. The convergence of The Earthshot Prize and United for Wildlife in Singapore this November underscores a collective commitment to promoting sustainability and amplifies the call for innovative solutions to address our planet's most pressing threats. It was an honour and a privilege for Petronel to represent Care for Wild in this international sphere.

Inov Sectinov with Petronel

Chris, Petronel, Charlie Sammut (Monterey Zoo) and Jim & Staci Roth (CFW US)

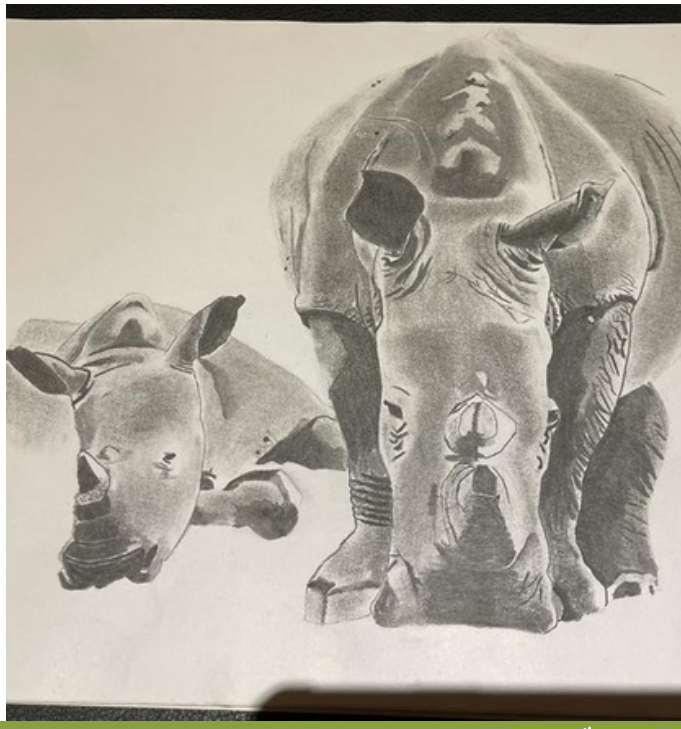

An Afternoon of Saving Rhinos: Monterey Zoo

As part of Petronel and Chris's trip to the US, Care for Wild was invited to attend 'An Afternoon of Saving Rhinos,' organised and hosted by the Monterey Zoological Society. The goal of the evening was to introduce their donors and supporters to the "boots on the ground" ambassadors who are protecting the future of rhinos in Indonesia and Africa.

Petronel spoke alongside the International Rhino Foundation's Executive Director, Nina Fascione, and the Director for International Rhino Foundations' Indonesia Programs, Inov Sectinov.

The day was a resounding success, with funds raised totalling $105,000, split between the charities. It was a privilege for Petronel to attend and meet such wonderfully committed and passionate professionals who are all working together to keep the five rhino species alive. A very special thank you to Charlie Sammut from Monterey Zoo for creating this incredible opportunity for fundraising, awareness, and collaboration.

Care for Wild's Soccer & Netball Tournaments Make A Difference

The Care for Wild kids soccer and netball tournaments hold profound significance in terms of education, providing a safe space, and fostering confidence among the participating children. Firstly, these tournaments serve as a unique educational platform where young participants not only enhance their sports skills but also gain valuable insights into wildlife and conservation. Through the engaging medium of sports, the children are exposed to essential lessons about the environment, instilling a sense of responsibility and understanding of the importance of preserving wildlife.

Secondly, the tournaments create a safe and supportive environment for the children and play a crucial role in building confidence. Engaging in competitive sports provides them with opportunities to challenge themselves, overcome obstacles, and celebrate achievements. The supportive community and the focus on skill development contribute to the children's self-esteem and belief in their abilities, nurturing a foundation for future success both on and off the sports field. This is the third netball and soccer tournament held at Care for wild that sees teams from two neighbouring communities take part.

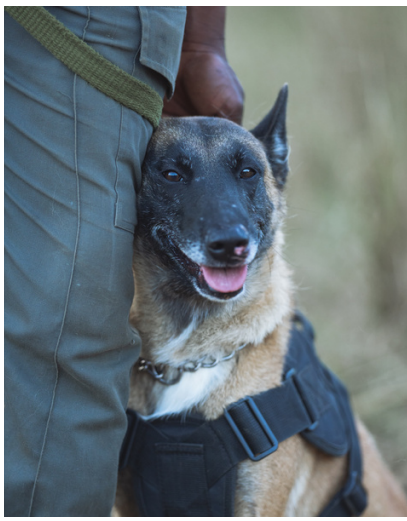

Milestone Achievements: Canine Team and Handlers Excel

We take immense pride in Care for Wild's K9 Unit. Siyabonga, who finished DH 1-4 through Braveheart Academy, continued his training with DH5 at Genesis K9 Group. Similarly, Given, also completing DH 1-4, has showcased their commitment to safeguarding the sanctuary's rhino population. The successful completion of these courses acknowledges excellence in dog handling and underscores their exceptional skills and dedication to wildlife protection. This accomplished duo also made history by becoming recipients of the prestigious Genesis Fitness award—the only occasion when two people have received the award

The Dog Handling (DH) courses completed by Siyabonga and Given encompass a range of crucial skills tailored for effective K9 Unit anti-poaching operations including, care for a service dog, how to handle a trained service dog to deter crime, supervision of kennel practices, how to handle a patrol dog to assist in the apprehension of a suspect, how to handle a trained sniffer dog to detect narcotics and explosives and how to handle a trained tracking dog to track down a suspect.

In addition to the handlers' achievements, the sanctuary's canine team demonstrated their incredible skills too! K9 Cooper successfully completed his Patrol Dog assessment, showcasing proficiency in apprehending suspects both on and off leash. K9 Looney excelled in tracking down suspects and completed a patrol dog assessment (DH4 & 5), showcasing versatility in anti-poaching operations. K9 Sheriff, having completed tracking of a suspect and a patrol dog assessment (DH4 & 5), is presently undergoing specialized training in narcotics and ammunition detection to enhance the sanctuary's defense against poaching threats.

We are so incredibly proud of the K9 Unit and their dedication to the protection of the rhinos and biodiversity.

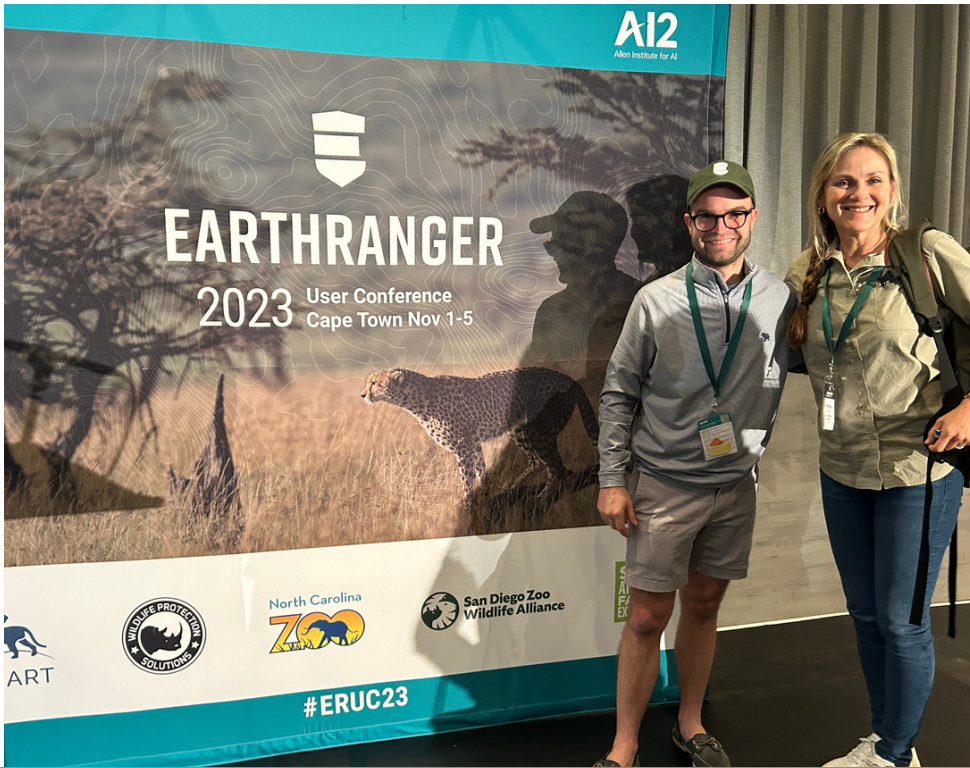

EarthRanger User Conference 2023

In early November, Petronel, Chris and Sam attended the 8th annual EarthRanger User conference in Cape Town that saw 484 attendees from six continents come together for wildlife conservation. EarthRanger is a software solution that aids protected area managers, ecologists, and wildlife biologists in making more informed operational decisions. Care for Wild has been integrating the EarthRanger system into our aprotected area management strategy and presented our use of the system at the conference.

EarthRanger has played an important role in many areas of our operations but specifically in the data collection and monitoring of the calves born to rehabilitated orphans. Care or Wild was extremely humbled to be part of the conference and grateful for the opportunity to meet with so many inspirational people and organisations working to protect and conserve biodiversity around the world.

A Heartfelt Farewell: Honouring Oom Deon's Six Years of Dedication and Service at Care for Wild

After six years of dedicated service, we bid a fond farewell to Uncle Deon and his K9 companion, Koa. In partnership with Pit-Track K9 Conservation and Anti-Poaching Unit, Oom Deon (Uncle Deon) has played an integral role in the Antipoaching unit at Care for Wild for many years. Bringing a wealth of experience to his position, Oom Deon was an irreplaceable part of the team, generously passing on his wisdom and knowledge to the next generation of recruits

Beyond his K9 duties, Oom Deon went above and beyond, caring for the orphans in the boma at night, taking over night feeds to allow the caregivers to rest, always in the company of his incredible dog, Koa. We will miss his reassuring waves from the Tower Post, and seeing him walking through the veldt, tirelessly protecting the released rhinos day and night. Oom Deon has our utmost respect for his dedication, passion, professionalism, and selflessness. He will forever be part of the Care for Wild family, and we wish him all the very best for his well-deserved retirement.

Warmth, Hugs & Love: Thank You Blankets for Baby Rhinos

We extend our deepest gratitude to Blankets for Baby Rhinos for their amazing support over the years. Their generosity has seen hundreds of blankets, as well as beautifully crafted beanies, jerseys, and scarves distributed between the rhino orphans, Care Givers, Rangers and the children of our local communities. Made with such love and dedication from people around the globe, they are so much more than just practical necessities – they represent a giant hug of warmth, compassion, and comfort. Blankets for Baby Rhinos has gone above and beyond by not only wrapping our rhino family in physical warmth but also by supporting milk drives for the orphans. To every volunteer involved in knitting and fundraising, we express our heartfelt thanks. Your time, effort, and contributions have made a significant impact on the well-being of the rhinos and the community at Care for Wild. Thank you for being a vital part of our journey and for your continuous support.

Erchonia's Compassionate Contribution: Advancing Healing and Therapy

We extend our heartfelt gratitude to Erchonia for their generous donation of one of their cutting-edge devices, which will play a pivotal role in enhancing the healing and therapy efforts for wounded or injured rhinos, as well as aiding in the treatment of arthritis and inflammation in our canine and equine companions.

Low-level laser therapy, or 3LT®, involves using low-intensity photonic energy as a treatment method. The process works by exciting the body's cells with photonic stimuli, providing them with energy. This stimulation results in three primary reactions: a reduction in inflammation, improved cell function, and increased blood flow.

The potential applications of low-level laser therapy are broad.
The benefits of low-level laser therapy include its non-invasive nature, speed, and effectiveness. Clinical trials have proven its ability to reduce pain, alleviate edema, and promote healing.

Socks with a Difference! Thank you Versus!

Versus Socks, a brand born out of passion and innovation, recently took a meaningful step in giving back by presenting Care for Wild with a substantial donation of over R124,000. This heartfelt gesture underscores Versus' commitment to making a positive impact beyond the world of sportswear.

Earlier this year, the company reached out to Care for Wild with a desire to contribute, and the result was truly remarkable. 10% of the sales from their specially designed rhino socks are dedicated to supporting Care for Wild's conservation efforts. This initiative not only showcases Versus Socks' dedication to philanthropy but also emphasises the power of purpose-driven partnerships.

As the Versus Socks journey continues to unfold, their recent visit to Care for Wild exemplifies their ethos of giving back and making a difference. A sincere thank you to Versus and their team for their extraordinary commitment to both innovative sportswear and wildlife conservation.

BUY NOW

Dedicated Volunteers: Dean and His Dad Dave, Enhance Care for Wild's Operations

Dean and his dad Dave, are regular volunteers at Care for Wild, and are always looking for ways to provide extra support but looking for solutions to some of our bigger challenges!

During their recent visit, they installed 'rhino bolts,' smooth covers for bolts to prevent rhinos from scratching themselves in the bomas.

They recently upgraded essential systems like expanding the battery capacity of the potable water reservoir monitoring system to ensure consistent drinking water level monitoring, even during overcast conditions. Additionally, their scouting visit to the borehole water pump resulted in a new simple yet effective solution: the ability to remotely start and stop the pump from the OPS room, streamlining operations.

We are so grateful to Dean and Dad Dave for their continuous passion and dedication to Care for Wild.
Thank you!

Fostering Conservation Partnerships

Petronel and Chris recently attended the Mpumalanga Tourism & Parks Agency (MTPA) CEO's 100 Days in Office Reporting Event. This invitation is a testament to the close collaboration between Care for Wild and MTPA, highlighting the shared commitment to wildlife conservation and ecosystem preservation. Chris and Petronel are pictured alongside CEO Mr. M. H. Vilakazi.

Have you joined our UK Facebook group yet?
